Dear Neighbor,

Most of our families need two working parents to pay the costs associated with living on Long Island. Our children are finding it next to impossible to buy a house here. There are many seniors, young adults and low income working families who struggle to live here. School Taxes are choking the life out of our quality of living. We must force BOEs to realize Long Island is not just about patronage and the teachers union. It's about us.

We need your help. We will help you raise money, organize, deliver flyers and reach all of your voting neighbors. We are too few to combat the educrat and union spin. And unfortunately, we must defeat this budget **TWICE**.
